

AMENDMENTS TO THE CLAIMS

This Listing of Claims will replace all prior versions, listing, of claims in the specification.

LISTING OF CLAIMS:

Claim 1 (original) A eyeglasses assembly with replaceable pad, comprising: a frame having a inverted "V" type nose stand and a hole, wherein said inverted V nose stand is in the middle of the frame, said hole on said frame, both sides of said inverted "V" type nose stand individually have at least one pillar, and said frame and lens form in one; and a soft pad, placing inside of said frame, having a nose stand in opposite said inverted V nose and at least one insert hole connecting to said pillar, and said pad in opposite hole of said frame having a flange connecting to said hole of frame.

Claim 2 (original) The eyeglasses assembly with replaceable pad as claimed in claim 1, wherein said frame has a concave on both sides.

Claim 3 (original) The eyeglasses assembly with replaceable pad as claimed in claim 2, wherein said concave connects to infixed-flange on both sides of pad.

Claim 4 (original) The eyeglasses assembly with replaceable pad as claimed in claim 3, wherein said both sides of frame has a groove connecting to the connect-pillar.

Claim 5 (original) The eyeglasses assembly with replaceable pad as claimed in claim 4, wherein said connect-pillar on both sides of pad connects the connect-hole on infixed-flange on pad.

Claim 6 (original) The eyeglasses assembly with replaceable pad as claimed in claim 1, wherein said frame has a groove inside.

Claim 7 (original) The eyeglasses assembly with replaceable pad as claimed in claim 6, wherein said groove and pad match well on width and thick.

Claim 8 (original) The eyeglasses assembly with replaceable pad as claimed in claim 1, wherein said nose stand of pad overlay the nose stand of frame.

Claim 9 (original) The eyeglasses assembly as claimed in claim 1, wherein said flange of pad includes a flange front end and neck, the front end is more protruded than neck.

Claim 10 (withdrawn) A eyeglasses assembly with replaceable pad, comprising: a lens having a inverted "V" type shape in the middle of the lens and a hole, wherein said hole is on both top side of said lens, both sides of said lens of inverted "V" type shape individually have at least one pillar; and a soft pad, placing inside of said lens, having a nose stand in opposite said inverted V nose and at least one insert hole connecting to said pillar, and said pad in opposite hole of said lens having a flange connecting to said hole of lens.

Claim 11 (withdrawn) The eyeglasses assembly with replaceable pad as claimed in claim 10, wherein said lens has a concave on both sides.

Claim 12 (withdrawn) The eyeglasses assembly with replaceable pad as claimed in claim 11, wherein said concave connects to infixed-flange on both sides of pad.

Claim 13 (withdrawn) The eyeglasses assembly with replaceable pad as claimed in claim 12, wherein said both sides of lens have a groove connecting to the connect-pillar.

Claim 14 (withdrawn) The eyeglasses assembly with replaceable pad as claimed in claim 13, wherein said connect-pillar on both sides of pad connects the connect-hole on infixed-flange, on pad.

Claim 15 (withdrawn) The eyeglasses assembly with replaceable pad as claimed in claim 11, wherein said flange of pad includes a flange front end and neck, the front end is more protruded then neck.

Claim 16 (withdrawn) The eyeglasses assembly with replaceable pad as claimed in claim 11, wherein a pattern is further provided on said top side of lens as a like-frame.
